Monday, 16 June 2008

Although in its development stages, the primary purpose of **C.H.A.R.M.E.D., Incorporated** — aside from providing the services detailed above — will be to provide financial aid to children's organizations that are dedicated to helping treat and care for catastrophically and terminally ill children. These organizations include but are not solely limited to, **Children's Miracle Network, St. Jude's Children's Research Hospitals, and Children's Hospitals** throughout the United States and abroad. Our efforts will also include providing financial assistance and aid to parents and families with catastrophically and terminally ill children.

Therefore, keep checking back with us. When the "creation" process has been completed, and we are fully operable, we'll let you know. Until then, our very best wishes to you and your's.

Respectfully,

*Antonio*
